

Dear Readers,

As part of our August issue of HR Perspectives we would like to convey to you our e-book entitled **#HRinCloud 2.0**. It contains a set of practical comments devoted to the digitization of HR processes and the online management of HR processes, incl.:

- digitization of employee documentation
- when documents should be prepared in written form and when they should be online
- how to terminate an employment contract remotely
- utilization of chatbots in recruitment
- QR codes in HR practice

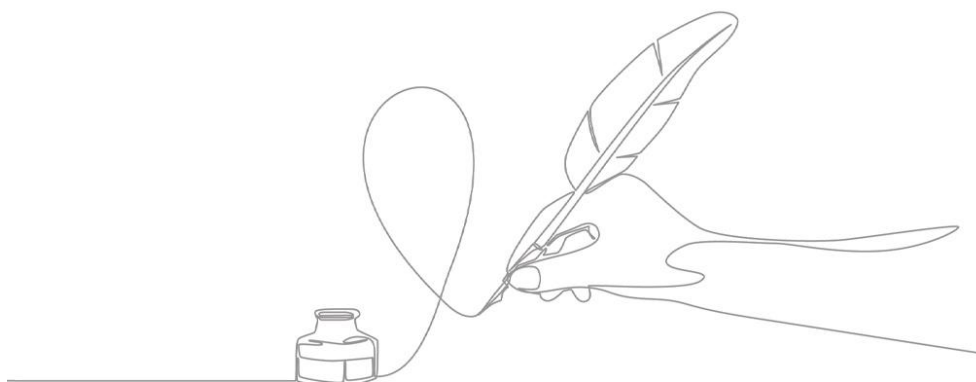

and many other topics.

It has been created as a result of the challenges and experiences related to the COVID-19 pandemic, lockdown and spread of hybrid and remote work in mind. The particular articles were regularly published on the PCS LinkedIn profile. One of our lawyers, Michał Bodziony came up with this idea and is one of their authors.

Enjoy the reading!

Sławomir Paruch
