to the

## HR Compliance Summit 2021

### We build on compliance!

October 6th, 2021 | on-line; free participation

Together with our international panelists from Littler Global, we will share proven, practical solutions from abroad – **Philip Berkowitz** will join our event from the US, **Alison Sneddon** from the UK, and Germany will be represented by **Matthias Pallentin**.

- **Whistleblowers** – traitors or heroes? How to overcome the negative mentality? Are financial rewards for whistleblowers really a good idea? How to build a whistleblowing system that benefits the company?
- **Social media** – can the company interfere with employees' private profiles? What about the public ones? Can the employees openly criticize the company? What are the consequences of insubordination?
- **Trade unions relations** – is it the management's obligation to build a relationship with the unions? What are your rights, and what are your duties? What can we demand from the unions?
- **Remote bullying** – can an employee working from home be a victim of bullying? How to avoid such allegations and what to do when they occur?
- **Global mobility** – employing a foreigner can be an obstacle course. Run with us to avoid stumbling!
- **Equal treatment** – are unvaccinated workers allowed to use the cafeteria at the office? Can vaccinated workers demand to work remotely? Who can feel discriminated?
- **Personal data protection** – can we ask about vaccination status? Should we require testing? Can anything be done to discipline the unvaccinated?

#### We invite you to participate!

The number of places is limited. Applications will be processed in order they are received.
